

American Chemical Society (ACS) LANGMUIR

Poster Presentation Award

Sk. Arif Mohammad, Ph.D. student in the Department of Chemistry, IIT Bhilai working under the supervision of Dr. Sanjib Banerjee has received American Chemical Society (ACS) LANGMUIR Poster Presentation Award in the International Conference entitled “Chemical & Biological Sciences in Drug Delivery-2019 (IC-CBSDD2019)”.

He is currently involved in the research and development of biodegradable polymers based on carbon-di-oxide capture. He is using bio-sourced materials as comonomers with carbon-di-oxide in order to produce the final targeted biodegradable polymers with tunable properties for drug delivery applications. His long term goal is to reduce the carbon foot print of our country.
